MARTINELLI

OUTDOOR

“Garden ornaments provide emphasis and accent in a garden, drawing the eye in a particular direction. Most ornaments, because they are solid and static objects such as urns, seats, columns or statues, provide a contrast with the living things around them”

D.J. Hicks

For centuries stone ornamentation has been used to enhance and transform outdoor areas adding interest and beauty to any setting.

At Martinelli Outdoor our collection of garden and landscape ornaments emulate the classical designs and proportions of historical pieces and also include modern lines to enhance and complement your garden design.

Whether your project is large or small, terrace or open grounds, the variety of the Martinelli Outdoor collection will have something to add the style and elegance you require.

The following catalogue is a sample of our vast collection - all Australian made - feel free to contact us for more details.
